CLICK FOR DETAILS

**CONTACT US**

### World's Largest Sequencing Capacity

30 HiSeq X and 25 NovaSeq 6000 sequencers deliver rapid turnaround time

### Extensive Whole Genome Sequencing Experience

Successfully sequenced hundreds of thousands of genomes

### Informatics Expertise Providing Publication-Ready Results

Cutting-edge bioinformatics pipeline for SNP/InDel/CNV/SV detection

### High Quality Guaranteed - Q30 Score Exceeds Illumina's Official Standards

Sample Type	Raw Data (Gb)	Q20 (%)	Q30 (%)	GC Content (%)
Human	100.32	97.61	94.30	42.67
Human	101.08	97.28	93.56	41.47
Human	102.60	96.85	93.85	41.39
Human	100.37	97.00	92.97	41.54
Human	113.12	96.89	92.73	41.40

Promotion valid through April 30, 2018, for Americas customers only

Novogene Corporation, 823 Anchorage Place, Chula Vista, CA 91914
